Section 2

- 1. The ancient Greeks mostly settled on the coast near the seas.
- 2. Ancient Greek communities were isolated from each other by mountains, which made travel and communication difficult.
- 3. Answers will vary. Possible answers:
 - Travel by land was hard because roads were not paved.
 - People had to bring their own food and other supplies with them.
 - Sudden storms might send ships off course or sink them.

Section 3

- 1. Answers in chart will vary. Possible answers: Challenges to Greek Farmers:
 - The land in ancient Greece was mostly mountainous.
 - Even in the plains and valleys, the land was rocky, and water was scarce.
 - The rainy season was mostly during the winter months.
 - No major rivers flowed through Greece.

How Farmers Met These Challenges:

- Some farmers built wide earth steps into the hills to create more flat land for farming.
- Most farmers grew crops like grapes and olives, which needed less land.
- Farmers planted hillside orchards of fruit and nut trees.
- Greek farmers raised sheep and goats, which can graze on the sides of mountains.
- 2. Some Greek settlements fought each other because of the shortage of good land.

Section 4

- 1. The ancient Greeks started colonies primarily because they needed more farmland to raise enough crops to feed their people.
- 2. The ancient Greeks consulted an oracle to see whether their efforts would be successful. Then they gathered food and supplies, took a flame from the town's sacred fire, and began their long sea voyages. Finally, after finding a safe place with good farmland and natural harbors, they established their colony.
- 3. The Greeks established colonies over a period of 300 years, from 1000 to 650 B.C.E. Colonies were located in Asia Minor (Turkey), Spain, France, Italy, Africa, and along the coast of the Black Sea.

Section 5

- 1. Some ancient Greek settlements traded to get the goods they needed.
- 2. Olive oil and pottery from the Greek mainland were traded (exported). In exchange, the Greeks got (imported) grain, timber, and metal.
- 3. Answers will vary. Possible answers:
 - Merchant ships were built not for speed but for carrying large amounts of goods. Journeys were long, and a one-way trip from the mainland could take two months.
 - The lack of compasses or charts made navigation difficult.
