

Careers: Requirements of Different Careers.

Objectives: Upon completion of this section, participants will be able to:

- Understand that different careers require different training.
- Understand the different types of training and education available.
- Demonstrate that understanding through completion of tasks.

A. *What is the basic requirement for most jobs?*

A high school diploma is the most basic requirement for most jobs.

When you graduate from high school, you are supposed to be able to read, write, and follow directions.

Some careers require more training and education.

What are some different types of education and training?

Where can you get them?

Can this training be free?

Name _____
